Product Summary

Tuf Turf grass come in a rich deep color-permanently dyed to true-to-life blades of grass. Tuf Turf is non-water absorbent and is the most pliable grass available. It is easily hosed off to look fresh and clean for each set up. Primary backing is thirteen pick treated and heat-set: secondary backing is uraloc, which gives soft, pliable grass in any extreme weather condition. Tuf Turf comes in wide range of sets to fit all applications it can be cut to your specifications 3' 6' or 12' widths.
