INSTRUMENT DESIGN & MFG. CO.

Comfort Grip Trocars™

Uses Standard Instrument Design
Trocar Points

Trocar features 3 Pairs of Holes

Easy conversion to
our Trocar Quick Connects

Introducing the first real change in a Trocar Grip. The New Comfort Grip Trocar™ by Instrument Design & Mfg. Co. is the first truly ergonomic grip on the market. The light weight plastic grip sits comfortably in the palm of your hand. The entire palm of the hand is used to grip the Trocar unlike standard grips where the fingers must be gripped tightly to securely hold the Trocar. The shape of the Comfort Grip is engineered so the straight line force of the shaft centers on the strongest part of the hand. These features greatly reduces hand fatigue. Trocars features 3 pairs of holes and standard 4 sided double slotted Trocar point. Our Comfort Grip Trocars are available with a slip hub connection or our new Side Button Quick Connect fitting.

[Click here for a video on the
Comfort Grip Trocar™](#)

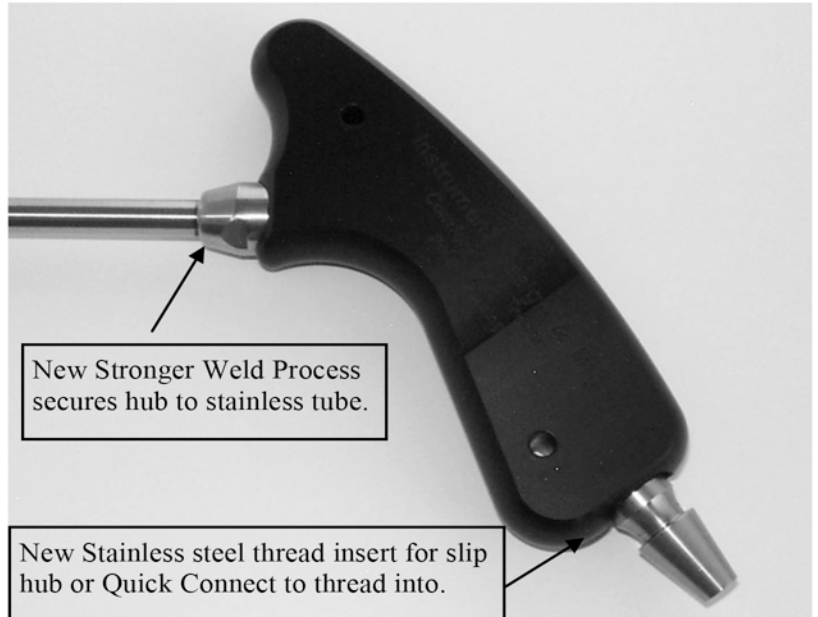

Available In These Popular Sizes:

TROCG312-16 5/16" x 16"
TROCG312-18 5/16" x 18"

TROCG375-16 3/8" x 16"
TROCG375-18 3/8" x 18"
TROCG375-20 3/8" x 20"

Replacement Trocar Points:

5/16" uses TP6416
3/8" uses TP6408

INSTRUMENT DESIGN & MFG. CO.

5/16" & 3/8" Stainless Dynamic Trocars

Our 5/16" and 3/8" Diameter Dynamic Trocars feature stainless steel tubing and fittings, high performance light weight Delrin hand grip, and a precision hardened 2 piece trocar point. All trocars come with a easy to remove safety cap for the point.

Available Lengths

TRODYN312-16-BP	5/16" x 16"
TRODYN312-19-BP	5/16" x 19"
TRODYN375-16-BP	3/8" x 16"
TRODYN375-19-BP	3/8" x 19"

Replacement Trocar Points:

5/16" Trocars	TP6820
5/16" Replaceable Tips	TP6838-6PK
3/8" Trocars	TP6762
3/8" Replaceable Tips	TP6770-6PK
(Tips sold 6 per package)	

The High Performance Grip is 1/6 the weight of an all metal grip. In addition it won't chip, peel or corrode. Once you try our lightweight trocar with the strength of stainless tubing you will never go back!

Stainless Tubing provide a smooth surface on the inside making it easier for clots and fatty tissue to pass without clogging.

Our Trocars feature a removable slip hub for easy conversion to our easy Quick Connect System.

INSTRUMENT DESIGN & MFG. CO.

5/16" & 3/8" Stainless Steel Trocars

Our 5/16" and 3/8" Diameter Trocars feature stainless steel tubing and fittings, high performance light weight Delrin hand grip, and a precision hardened trocar point. All trocars come with a easy to remove safety cap for the point.

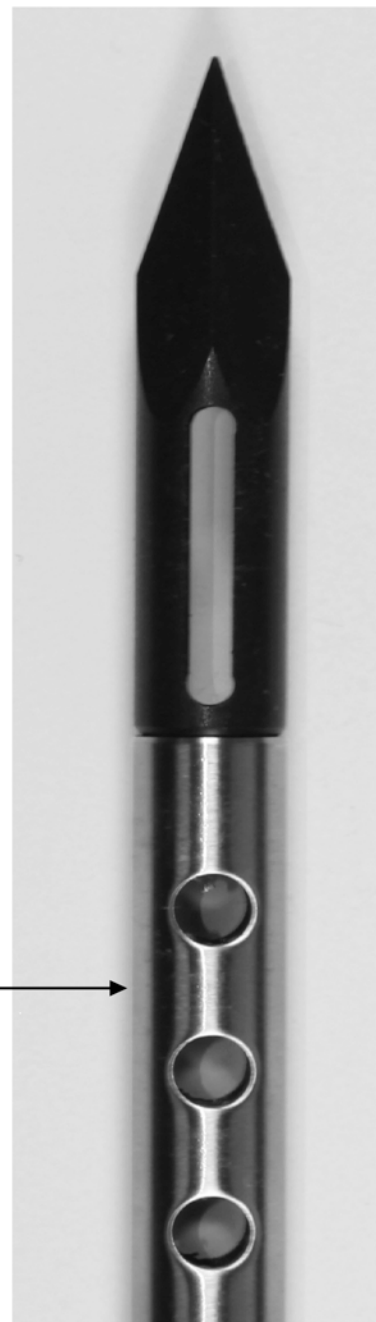

Available Lengths

TRO312-16-BP	5/16" x 16"
TRO312-18-BP	5/16" x 18"
TRO312-20-BP	5/16" x 20"
TRO375-16-BP	3/8" x 16"
TRO375-18-BP	3/8" x 18"
TRO375-20-BP	3/8" x 20"
TRO375-22-BP	3/8" x 22"

The High Performance Grip is 1/6 the weight of an all metal grip. In addition it won't chip, peel or corrode. Once you try our lightweight trocar with the strength of stainless tubing you will never go back!

Three pairs of irrigation holes provide for dependable evacuation of liquids while filtering larger debris which may cause clogging. Stainless Tubing provide a smooth surface on the inside making it easier for clots and fatty tissue to pass without clogging.

Our Trocars feature a removable slip hub for easy conversion to our easy Quick Connect System.

INSTRUMENT DESIGN & MFG. CO.

3/16" Stainless Steel Trocars

Our 3/16" Diameter Trocars feature stainless steel tubing and fittings, high performance light weight Delrin hand grip, and a precision hardened trocar point. All trocars come with a easy to remove safety cap for the point.

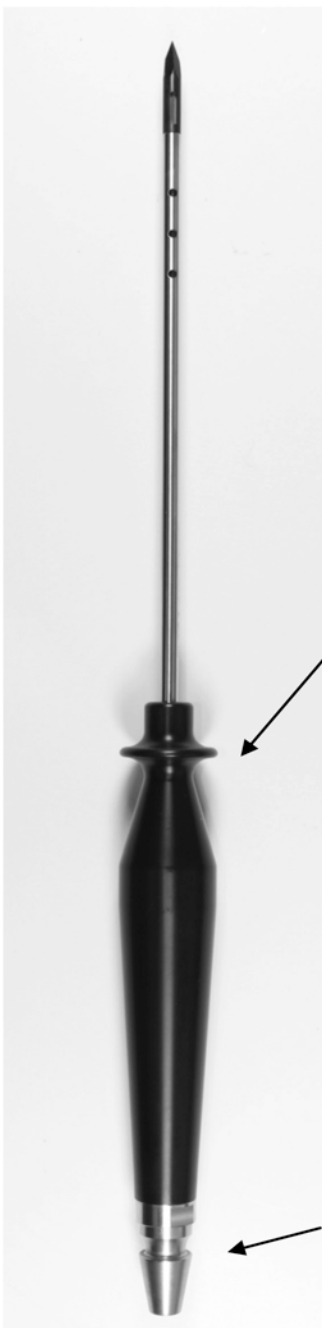

Available Lengths

TRO187-07-BP	3/16" x 7"
TRO187-12-BP	3/16" x 12"
TRO187-16-BP	3/16" x 16"
TRO187-18-BP	3/16" x 18"

The High Performance Grip is 1/6 the weight of an all metal grip. In addition it won't chip, peel or corrode. Once you try our lightweight trocar with the strength of stainless tubing you will never go back!

3 pairs of irrigation holes are offset from the corresponding holes on the opposite side providing greater strength by leaving more tube wall intact and not creating a weak point. The arrows point to both the visible hole and the location of the opposite side. This same procedure is also done on our 1/8" and 3/16" Hypo Shafts.

Our Trocars feature a removable slip hub for easy conversion to our easy Quick Connect System.

Pro Series Pull Ring Drain Tubes™

Pro Series Pull Ring Drain Tubes™ feature precision machined light weight high performance black Delrin body with a Precision Stainless Pull Ring and Stainless Steel Tube. Stainless Components resist corrosion and will not chip or corrode. Four precision machined slots provide for increased flow. Easily disassembled for cleaning.

Pull Ring features a smooth full compound radii on both the inside and outside diameter and will easily accommodate larger fingers

- ***Stainless Steel Construction***
- ***Solid Black Delrin Body***
- ***4 Precision Drain Slots***
- ***Easy to Disassemble***
- ***Easy to Clean***
- ***Made In The USA***

Available sizes:

<i>DRNPS250 x5</i>	<i>1/4" x 5"</i>
<i>DRNPS312x5</i>	<i>5/16" x 5"</i>
<i>DRNPS375x5</i>	<i>3/8" x 5"</i>

CHEMICAL CAVITY INJECTORS

Chemical Cavity Injectors

Are available in 3,5 and 7 inch lengths. Feature high performance light weight black Delrin body with a stainless steel vent tube and button. The vent tube is pressed into the Delrin body for a secure fit. The tube and inlet button provide high capacity for air flow allowing the liquid to drain faster.

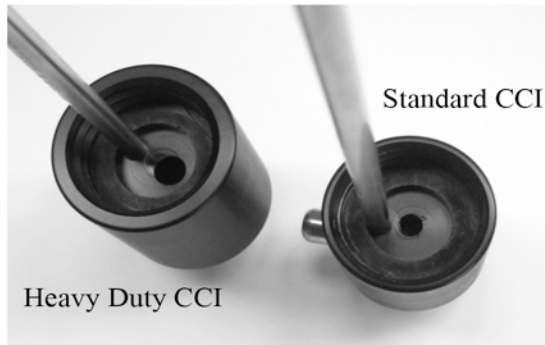

Part Numbers

3" Chemical Cavity Injector - CCI3579-3

5" Chemical Cavity Injector - CCI3579-5

7" Chemical Cavity Injector - CCI3579-7

HEAVY DUTY CHEMICAL CAVITY INJECTOR

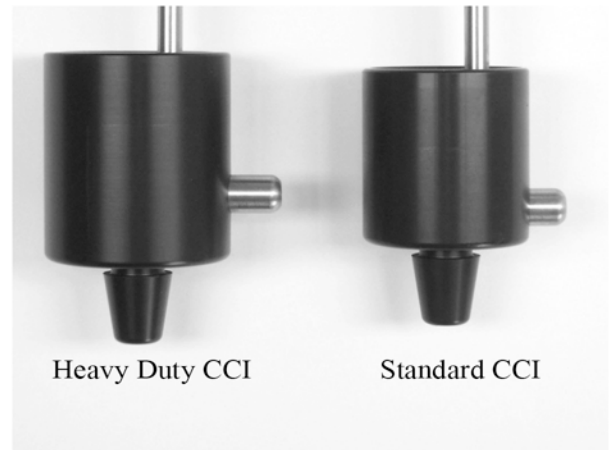

Features a reinforced body with thicker walls to resist cracking.

Part Numbers

3" Heavy Duty Chemical Cavity Injector - CCI-3-HD

5" Heavy Duty Chemical Cavity Injector - CCI-5-HD

7" Heavy Duty Chemical Cavity Injector - CCI-7-HD

Larger body than our standard CCI.
